CROSSFIELD AIRMAN SUFFERS SHRAPNEL WOUND IN FLIGHT OVER NORTHERN GERMANY

JOHN CARMICHAEL
IS CASUALTY ON
FIRST FLIGHT

Sgt.-Observer John Carmichael, 20, son of Mr. and Mrs. D. W. Carmichael of Crossfield, who is with the RCAF overseas, was injured on his first flight over enemy territory, according to word received here.

Mr. and Mrs. Carmichael received a letter from John on Wednesday in which he told of the raid over northern Germany. He was the only member of the bomber's crew injured. His crew mates gave John first aid and he was able to carry on as navigator to direct the flight home.

The accident occurred on August 2nd, and, John writes, after they had dropped their bombs. According to the letter John's wound is not serious and he seems quite cheerful even though in hospital.

John joined the Royal Canadian Air Force in June last year and went overseas in April this year, since being transferred to serve with a Royal Air Force squadron.

Minister Urges Farmers Wait Until Crop Dry Before Threshing

EDMONTON, Sept. 18.—Hon. D. Bruce MacMillan Alberta agriculture minister, today urged Alberta farmers to use the greatest care in having grain mature before beginning to thresh.

He said reports have reached the agriculture department that, owing to unfavorable weather conditions, grain is sprouting in the stock and in the swath. In many districts, lower grades will result from these conditions and losses will be unavoidable.

In urging farmers to exercise the greatest care in having grain mature and dry before commencing threshing, Mr. MacMillan said "if threshing is resumed before the grain is dry, further trouble will be experienced with heated grain in the bins or at the elevators. Farmers cannot handle heated grain on the farm without sustaining heavy losses and the lack of elevator space this year, makes it impossible to handle any large volume of damp grain at country elevators or terminals."

Experience has shown that it "pays to wait until the grain is in proper condition before threshing is resumed after a wet spell such as Alberta farmers have encountered this year."

George Fleming of Didsbury spent the weekend with his parents and was accompanied by Frank Songhurst of the same town.

Miss Arlene Amery, Calgary, spent Sunday in Crossfield.

Mrs. J. Helzer and family are spending a few weeks at Ponoka with Mr. Helzer's sister, Mrs. E. Schnell.

Miss Alice Ontkes of Calgary spent Sunday with her parents.

Mrs. J. Fike is a patient in the Calgary General Hospital.

Mrs. M. Montgomery of Calgary is visiting with her parents, Mr. and Mrs. D. Ontkes.

PETRIFIED HEADS OF BUFFALOS ARE FOUND IN DISTRICT

While digging in a creek on his farm, W. W. Stafford unearthed ten buffalo heads which had turned to stone. One is on display in the window of The Chronicle and is attracting considerable attention.

The petrified skulls were under about 14 feet of earth and in a cluster. A variety of opinions have been expressed as to the circumstances under which they might have been buried as a group, and among the suggestions was the thought that Indians may have driven them over cut-bank. Another idea arose that they might have just been thrown in a heap by the Indians after slaughtering them for the meat.

The skull on view is decidedly shaped like a buffalo head but the very fact that it is petrified has caused the belief that it belongs to some prehistoric beast that through the years developed into the buffalo.

ENDORSE CAMPAIGN

The Rosebud Municipal District council, in regular session on Saturday, endorsed the campaign of the Alberta Motor Association to secure the appropriation of all road, gasoline and oil taxes for road purposes.

Under Martial Law

Scenes like this, where a steel-helmeted, armed German trooper stands guard outside the National Theatre in Oslo, Norway, were common to German authorities put the Norwegian capital under strict martial law, surrounded it with troop concentrations and took control of all travel. Drastic step was taken in effort to put down nothing unrest.

CROSSFIELD WHEN?

How many residents of the Crossfield district remember when the town looked like the above picture, and how many can identify the team in the foreground?

PERSONAL PARAGRAPHS

Pte. "Rob" Laut, RCO, left Friday night from Calgary to rejoin his unit in an eastern centre after spending several days on embarkation leave at his home here. He has recently been serving as a tank driver.

J. R. Laut seriously injured his hand last week when he caught it in the gears of his power binder.

Mrs. Jas. "Granny" Laut recently celebrated her 85th birthday and recalled 39 years spent in the Crossfield district after coming from Missouri.

Mr. Eph. High of New Dundee, Ontario, and formerly of Crossfield is in town spending a vacation with his children.

Mr. and Mrs. H. D. McFadyen were present in Calgary on Thursday of last week when their son, LAC Ronald McFadyen received his "sparks" at the No. 2 Wireless School. He is now at bombing and gunnery school undergoing further training.

Rev. and Mrs. A. D. Currie returned Sunday night from a two-week vacation spent at the Coast.

"Stevie" Stevens, Harry and Art Fenwick and Jim Cuming were among the Crossfield nimrods who went out to open the duck season on Monday. They were out early in the morning and again in the afternoon and between them bagged about 35 birds.

Art Baker, RCAF, MacLeod, spent the weekend at the home of his parents, Mr. and Mrs. F. T. Baker.

Happy Birthday to You!

ENTERTAINED BY
CPL. CAMERON ON
COMING OF AGE

John Harold Isaac of Crooked Creek, Grand Prairie, celebrated his 21st birthday on Monday in a unique and unpleasant manner—in the custody of Cpl. Don. Cameron, RCMP, Crossfield.

Isaac was arrested by Cpl. Cameron on Monday morning on a Crossfield street as a suspect in connection with a robbery of Ranton's store in Didsbury on Saturday night. The store was entered and an outfit of men's clothing stolen.

The "Beau Brummel" thief donned his loot thus giving a reliable clue of his description. He left his off-cast clothes as a souvenir of his visit. After a search all day Sunday and during the night Isaac was apprehended by Cpl. Cameron Monday forenoon and was later taken to Olds.

SHOOTING FOR SHIELDS

Fine heads are being drawn by members of the Crossfield Rifle Club in attempts to merit Dominion Marksmen trophies. Eric Hopkins and Billy Harrison are shooting for their Expert's Shield and the majority of other members are out after silver spoons. The shoots are held on Monday and Wednesday evenings in the rear of Baker's Garage, Crossfield.

Saboteur Stymie

Worker holds light designed by General Electric to put night-prowling saboteurs in the dark. Placed on fences around plants, new lens throws wide horizontal light, but a narrow vertical beam.

District Mourns Passing of Mrs. M. McRory

Mrs. Martha Jane McRory, 81, old-time resident of Crossfield until about a year ago, passed away at Macleod on Saturday following a lengthy illness.

Born in Godfrey, Ont., Mrs. McRory came from Souris, Man. to Macleod in 1897 where she lived until moving to Crossfield 19 years ago. For a little over a year before her death, Mrs. McRory had been living in Macleod with her daughter, Mrs. Arthur Young.

Her husband, Wilson McRory, died here four years ago.

Deceased is survived by three sons, E. S. McRory of Vancouver, J. L. McRory of Crossfield and C. G. McRory of Winnipeg; one daughter, Mrs. Young of Macleod, six grandchildren and three great grandchildren.

Funeral services were held on Tuesday at 2 p.m. from Leyden's chapel with Rev. V. M. Gilbert of Macleod officiating. Interment was in the family plot at Burnsland cemetery. Pallbearers were Ivor Lewis, Wm. Laut, F.O. Norman Macleod, C. Palfrey, A. T. Kloefer and E. J. Mackay.

TAN-Y-BRYN TEACHER PASSES SUDDENLY

While visiting friends, Mr. and Mrs. M. N. Underhill, Mrs. Hazel Leahy Young died at their residence in Crossfield on Saturday from a heart attack. Mrs. Young had taught school at Tan-Y-Bryn for the past year, before which she taught at Torrington, Acme and several other schools. She was a member of the Eastern Star Lodge at Acme. Her husband predeceased her at Acme in 1936.

Surviving are: a daughter, Eleanor at Crossfield; one son, William with the RCAF at Hamilton, Ont.; three sisters, Mrs. H. Quirt of Kalarad, Ont., Miss R. Markle of Toronto, Mrs. W. Pelfer of Vienna, Ont.; three brothers, Lorne Markle of Hamilton, Hugh of New York and Brock of Kimberley, B.C.

SCHOOL CHILDREN TO RECEIVE IODINE TABLETS THIS YEAR

Dr. R. McPherson of the Municipal Health District advised the meeting of the Rosebud municipal council on Saturday that inspection of water in the whole of the district revealed a lack of iodine, which is so necessary for the prevention of goitre. He received the consent of the meeting to supply all school pupils of the Rosebud district with two iodine tablets a week for the school term. Dr. McPherson also advised the use of iodized salt in the home for goitre prevention.

Rev. H. V. Ellison attended a meeting of the Presbytery at Rocky Mountain House Tuesday.

AROUND FIELD AND BARN By E.M.C.

Since a weed is described as a plant growing in the wrong place, Sweet Clover should be considered a weed when growing on the roads.

You may build roads as high as you wish for winter travel and Sweet Clover will snow-block the highest grade. It will not flatten out like grass or most other growth, but will stand like a board fence—a snow trap in the wrong place.

If cut late, it is tough and will seed, if cut early a second cutting is necessary. This second growth is often low spreading and hard to get with a mower, and will often seed late.

Cultivation or burning is the only effective method of control. The leaflet, "Melilot Taint" published by the Field Crop Branch at Edmonton, warns against allowing Sweet Clover to seed on roadsides and fence rows.

**"Don't you wish we
could shorten the war?"**

He: "Well, in a way we can, you know."

She: "But, George, we're not trained to do anything..."

He: "Training doesn't matter for what I'm thinking about. I was wondering whether we couldn't put more of our income into War Savings Certificates."

She: "And why not? We might have to go without one or two pet luxuries—but wouldn't it be worth it to bring back peace again?"

He: "And won't we be glad of the money—and the interest it will have earned—in a world without war restrictions!"

The help of every Canadian is needed for Victory. In these days of war the thoughtless spender is a traitor to our war effort. A reduction in personal spending is now a vital necessity to relieve the pressure for goods, to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make, demands this self-denial of each of us.

tributed by Provincial

Department

BY HON. N. E. TANNER

Minister of Lands and Mines

With 1941 entering its last quar-

ter, the all-important question of

tree planting for the coming year

presents itself once more for serious

consideration.

The importance of this annual

undertaking has been often empha-

sized by the department during past

years and it is gratifying to note

the ever-increasing interest taken in

this matter. The vital necessity for

trees and more trees has been con-

tinually pointed out—their import-

ant place in Alberta's agricultural

life and the benefits which they

provide. It is hoped and believed

: Airdrie and District News :

Mrs. L. D. Switzer
—Airdrie Representative—CONVERSION OF
BUILDING INTO
DWELLING

The Alberta Pacific Elevator Company, which recently purchased the old Royal Bank building in Airdrie, is making the main floor into suitable living quarters for its new agent who has been operating the elevator for about a month. The upper floor is also being redecorated.

A new two-car garage is being built on the same property and a new well was recently drilled which supplies a good flow of water. This new addition to the housing accommodation in Airdrie is helping to solve the shortage.

this interest will continue.

The following information has just been issued by the Forest Service which gives details regarding the distribution of trees for planting to be made after the turn of the year.

Trees, free of all charge excepting the express charge covering shipment, are to be given by the Forest Service to farmers in the province for the following purposes:

1. For plantings within natural poplar or willow bluffs.
2. For replacements in established windbreaks or shelterbelts.
3. For additions to established windbreaks or shelterbelts, where the trees to be planted are set out close enough to the old plantation that they receive protection against wind and, in the case of conifers, against the sun, by the established trees.

Applications for rural schools and cemeteries will be given consideration.

Trees are not available for beautification only, nor for the establishment of new windbreaks or shelterbelts. Persons requiring trees for the former purpose should secure them from commercial nurseries, and for the latter should apply to the Dominion Department of Agriculture, Tree Planting Division, Indian Head, Saskatchewan.

Trees available for distribution in the spring of 1942 include the following: White spruce, lodgepole pine, red pine, green ash, bur oak, Douglas fir, Siberian larch (not more than 10 to each applicant), white oak (not more than 10 to each applicant), red oak (not more than 10 to each applicant), American elm (not more than 5 to each applicant).

In addition to the above, cuttings of laurel, leaf willow, golden willow and northwest poplar will be available.

In connection with each application, it must be noted that a limit has been placed on the shipment of Siberian larch, white oak, red oak and American elm.

The quantities of these species are very limited, and it might be necessary to allot applicants smaller numbers, or entirely delete from some applications when a number of the first six are requested. In addition to the limitations of stock available, the number of applications sometimes renders it impossible to send out all the trees for which applications are received.

Application forms may be obtained from the Director of Forestry, Administration Building, Edmonton. These forms must be received by the Director of Forestry, property filled in, before January 31, 1942.

\$115,000 Will
Be Expended on
Airdrie AirfieldAIRDRIE MAY FEEL
BENEFIT OF NEW
MONEY IN DISTRICT

Announcement of the letting of a \$115,000 contract for the Relief Landing Field in the Airdrie district has caused a spirit of optimism in the town in the hope that a portion of the money earned by workers may find its way into local business. Although no definite word has been released as to the nature of the work, it is locally believed that the field will be provided with barracks and store rooms for use as a night flying school in the training of pilots and perhaps observers.

Prevalent rumors are to the effect that as many as 200 men may be employed on the project

JAMES BUSHNELL
NOW IN TRAINING

James Bushnell, son of Mr. and Mrs. Bushnell of this town, is undergoing a four-months training in Air Frame Construction under the recently instituted RCAF plan. James, who is stationed at Crossfield, will enter the RCAF as ground crew member after this initial training. Until recently he has been working in the Atlas Lumber Company yards at Crossfield.

SHOP NOW UNDER
NEW MANAGEMENT

and that all available men in the district will be given work.

THE LITTLE
PEOPLE OF
ENGLAND

by MRS. VALLANCE S. PATRIARCHE

"THEY carry no weapons, wave no banners, chant no stately measures of poetry, these little people of England. Pale circles, laborers with stiff, gnarled hands; old fishermen and young mechanics; housewives, washer-women, nurse-maids and chaps, and tired children singing underground fit to break your heart.

"THEY climb to heights of glory as if born to sacrifice and heroism, scaling the peaks by humble paths and mean alleys which turn to pits of flame; or attaining the summit of valor through dark and cruel descent into the icy waters of the sea. Like soldiers they have borne the shock of fire and shell; like sailors they have gone down unflinchingly to their death in shattered ships, and like aviators they have given their strength to rise 'By Labor to the Stars'.

"No Abbey walls have space to record the deeds of these simple ones, gone sadly or gaily to eternity. Their names shall not be graven on stone nor painted on glass; no Roll of Honor could set them forth. But the dust of England, the winds which whisper in her trees, the waves which beat upon her shores, shall vibrate with the passion of their courage, the splendor of their sacrifice. Each dawn shall tell how they arose in humble cheerfulness to light their tiny corner of the earth with a candle of faith, each sunset shall be a flaming beacon to remind all men of their burning steadfastness."

ROSEBUD COUNCIL GIVES SUPPORT TO HOSPITAL SCHEME

Rosebud Municipal council, at its regular meeting on Saturday in Crossfield, passed a resolution supporting the scheme for erection of a 40-bed hospital midway between Olds and Didsbury. Mr. Stanley Edwards of Olds, secretary of the group advocating the scheme, advanced the proposal to the meeting.

Funds for the proposed institution, which will embrace the municipal districts of Westerdale, Mountain View and portions of Rosebud and Beaver Dam, will be raised by voluntary public subscription and donors will receive special hospital rates for a specified time. There will be no definite boundaries drawn in Rosebud and Beaver Dam, it is understood, but it is expected that only those persons who live closer to the proposed hospital than Calgary will subscribe.

Cost of the mooted hospital is \$60,000.

Motor Fuel Economy

Tests carried on at the Experimental Station at Swift Current show that the draft of one-way discs and moldboard plows increases very markedly with an increase of speed. An increase in speed of two miles per hour increased the draft of the one-way disc by 15 to 20 per cent, of the slow speed moldboard plow by 30 per cent, and of the high speed moldboard plow by over 35 per cent. An increase in speed of one and one-half times the slower speed required twice as many horse-power to operate the machine, giving a net result that 25 per cent more horse-power hours per acre were required to till the land in the case of the plow and over 10 per cent in the case of the one-way. This increase in power per acre is a definite increase in fuel per acre. Therefore, it is economically sound to pull larger units at slower rates of speed. Most important, however, is the fact that the better job of tilling resulted at the slower speeds. The soil was pulverized less and the trash anchored in the one-way disking at the lower speed.

It was further noted that the high speed moldboard plow used could be operated one mile per hour faster than the slow speed plow, leaving a similar job of plowing.
